

[Letter from Carita Doggett Corse to Alton C. Morris, April 25, 1940]

April 25, 1940

Mr. Alton C. Morris Box 44 Chapel Hill, North Carolina

Dear Mr. Morris:

A month ago I conferred with Dr. Spivacke of the Music Division, Library of Congress, regarding the duplicates of the Florida records promised us. He said that making of the duplicates had been delayed because they had had difficulty in getting a WPA worker assigned to this task. However, he said he expected to secure a qualified worker in the near future and would send us our copies as soon as possible. I will forward a copy of your letter to Dr. Spivacke and ask him to let you know whether these are available.

I have received a request from Dr. O. H. Hauptman to assign a worker in the Tampa office of the Writers' Project to collect folklore under his direction. I have agreed to do this and he will confer with my Tampa supervisor on selection of the worker. We already have a large amount of unedited material which we will be glad to place at his disposal.

Sincerely yours, Dr. Carita Doggett Corse State Supervisor WPA Writers' Project of Florida
